FOREWORD

Colonel Ragan latest work on the cataloging of Civil Air Patrol Insignia is at hand. It, along with his earlier *The Collectors Catalog of Civil Air Patrol Insignia, 1942-1985* and *Civil Air Patrol Unit Patches, Volume One* represent truly outstanding reference works on the subject. No serious Civil Air Patrol Insignia Collector's reference library can be considered complete can do without all three works.

Many of the unit patches illustrated herein are being introduced to the collecting community for the first time. In so doing, Colonel Ragan once again contributes to the preservation of the rich heritage of the Civil Air Patrol.

Colonel Ragan's personal background as a professional illustrator and a life-long collector of military insignia make him uniquely qualified to present the material contained herein. His personal dedication and desire for accuracy are evident at first reading.

It has been the writer's distinct privilege to work with the author for the past several years on numerous Civil Air Patrol Historical Projects. This association has been a most rewarding experience as is his highly valued friendship.

PREFACE

After almost four years, volume two of this study of Civil Air Patrol unit insignia is ready. With this volume, we now have illustrated over 480 CAP unit emblems, special qualification patches and commemorative insignia.

As Civil Air Patrol enters its second half-century of service, it is only fitting that members try and preserve the insignia of local units. Many of those units have been long since disbanded, but their record survives in the insignia they left behind.

All technical aspects of these books was covered in the preface of volume one. If you have questions of a technical nature about these volumes, I suggest you check that source. If you have any other questions about CAP unit insignia, please feel free to write me at the address listed below.

Plans are in the works for a possible volume three of this series at some future date. First of all, we will need about 240 to 250 CAP unit insignia that have not been illustrated in either of these first two books. If you want to contribute, please send a full size, good quality photocopy of any patches, decals or line drawings. DO NOT fold the copies when you mail them and please do not draw lines on the design to indicate what colors go in what parts of the design. I am most interested in buying any Civil Air Patrol unit patches, special event patches or decals of either type insignia.

I hope each one of you appreciates the colorful history of Civil Air Patrol as represented by the insignia contained in this book.

NOTES AND CORRECTIONS FOR VOLUME ONE:

1. 405th (page 3) Unit possibly located near Nellis AFB, Nevada in the 1950's. Anyone have more information?
2. Ashland '69 (page 6) This patch was given to Cadets and Senior Members who attended a type "B" encampment held at the Nebrasks Army National Guard Camp at Ashland, Nebraska in 1969 and possibly 1970. This information was given to Major William L. Kidnry of the National Historical Committee by 1st Lt. Charles L. Burchess III, of the Lincoln Cadet Squadron, Nebraska Wing.
3. Continental Military Institute (page 13) This unit was possibly located in Florida. Can anyone confirm this? (Submitted by Major William Kidney.)
4. Littleton (page 25) Is this the patch for the Littleton Senior Squadron in Denver, Colorado?
5. Shasta Squadron (page 40) This should read "Shasta Squadron 126". (Submitted by 2nd Lt. Larry Lourenco of the California Wing.)
6. Southwest Region patches (page 41) The 1st design of the Southwest Region patch had the red dot on Dallas, Texas as that is where the region headquarters was located when the patch was designed. The SECOND version has the dot or small red star on Oklahoma City when the headquarters was moved there. The third version has the star or the dot moved back to Dallas. Some patches produced after the move back to Dallas eliminated the Oklahoma panhandle from the region map on the patch. The fourth and last version still has the small red star on Dallas, but this version is embroidered on twill whereas all the older versions were fully embroidered.
7. West Boward (page 47) This should be "West Broward".
